RE: Schulte v. BOP, 20-CV-2795 (PGG)
(GWG)

Judge Gorenstein,

I just received the defendant's Motion to Dismiss today, 11/30/21. I ask the Court for 30 days to file a response, until January 3, 2022; I expect to finalize the response next week but request the extra time due to the extreme mail delays that I am experiencing.

I also note that I filed a Notice of appeal regarding the continued mail delay that make this litigation all-but-impossible. If the Court never received this notice of appeal then I ask the Court to consider this Notice of interlocutory appeal. The issue is already before the Second Circuit from my criminal case, but I intend to consolidate this appeal into the current appeal.
